Merchandise Material/Cost Breakdown Form

***If item is selected for purchase, this form must be submitted with quote sheet. If PO contains more than set or assortment, a form must be provided for each set.**

Please list the materials used to make the merchandise along with the percentage of each of the materials and the cost of each (total cost must add up to FOB). The Weight/Percentage column should be used to show the amount that particular material contributes to the total weight of the item. It should not be used to show the percentage of the cost.
If the merchandise is a set of several items, each item in the set must be listed and detailed separately.

Example: Polyresin Flower Pots in Rack			
3 Flower Pots (50g)	*Calcium Carbonate*	*27.5 grams/55%*	*$0.55*
	Polyester Resin	*22.5 grams/45%*	*$0.45*
Rack (75g)	*Iron wire*	*75 grams/100%*	*$0.25*
Total			*$1.25*
