### STEP 1 / ÉTAPE 1

Attach front and back coop panels to side coop panels with screws (A).

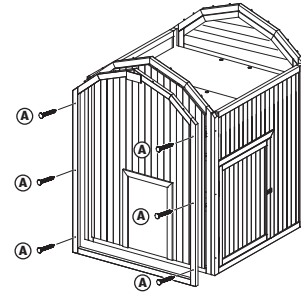

Fixer les panneaux avant et arrière de bois aux panneaux latéraux de bois avec vis (A).

### STEP 2 / ÉTAPE 2

Place the 2 coop roosting bars in their designated brackets and the drop in the storage area floor panels in the direction illustrated.

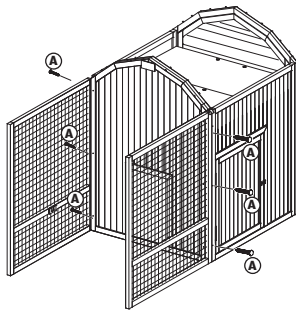

Insérez les barres du perchoir intérieures alors insérez le panneau de plancher de zone de stockage dans la direction illustrée.

### STEP 3 / ÉTAPE 3

Attach rear pen frame to the coop with screws (A).

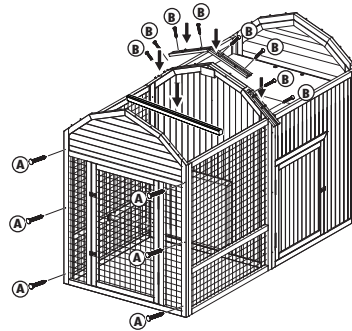

Fixer le cadre en bois à la structure avec vis (A).

### STEP 4 / ÉTAPE 4

Attach side pen panels to the pen frame with screws (A).

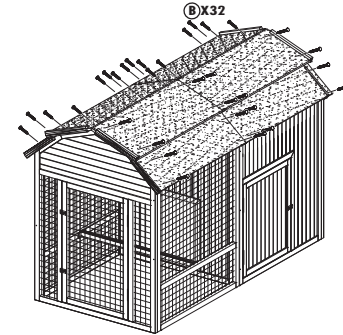

Fixez les panneaux latéraux sur le cadre en bois avec vis (A).

### STEP 5 / ÉTAPE 5

Attach front pen panel with screws (A). Attach lower roof gutters with screws (B), then attach upper roof gutters. Place roosting bar in pen area.

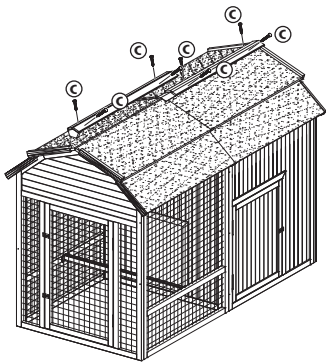

Fixez le panneau de fil avant avec vis (A). Fixez les gouttières bas avec vis (B), alors fixez les gouttières haut. Insérez le barre du perchoir extérieur.

### STEP 6 / ÉTAPE 6

Secure lower roof panels with screws (B), then secure the upper roof panels.

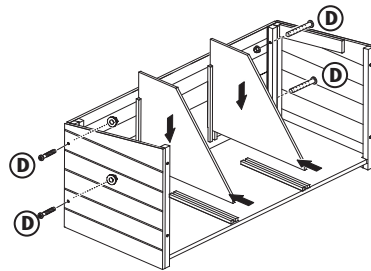

Fixez les panneaux du toit bas avec vis (B), alors fixez les panneaux du toit haut.

### STEP 7 / ÉTAPE 7

Attach the rear roof cap with screws (C), then attach front roof cap.

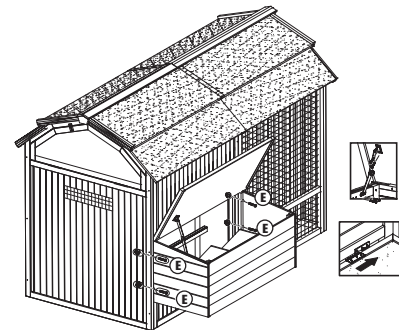

Fixez le joint du haut de toit arrière avec vis (C), alors fixez le joint du haut de toit avant.

### STEP 8 / ÉTAPE 8

Assemble the nesting box with bolts and nuts (D). Slide the nesting box floor panel as illustrated above. Insert the divider panels as shown.

Utilisez le boulon D pour fixer le pondoir. Insérez les panneaux du plancher dans la direction illustrée. Insérer les panneaux séparateur.

### STEP 9 / ÉTAPE 9

Use bolts and nuts (E) to attach the nesting box to the barn. Slide in the nesting box lid as shown. Make sure the hinge joints connect properly. Attach the safety catch hinge with provided screws.

Utilisez le boulon E pour connecter le pondoir à l'installation principale. Glissez le couvercle du pondoir tel qu'illustré. Assurez-vous que les joints des charnières se connectent adéquatement. Fixez le cran de sureté de la charnière avec des vis.
