

## REAR MOUNT SNOW BLOWER

- Perfect for clearing snow from driveways, parking lots and other large areas
- Rear attached PTO driven 3-point hookup to any Category I tractor
- Chain and sprocket system rotates the chute, eliminating loose, tangled and frozen cables and providing maximum uptime protection
- Chute rotates and deflector adjusts up or down as needed, pointing snow in any direction
- High-mount chute rotator handle lets you adjust height and direction of snow discharge without leaving your seat
- Adjustable and replaceable skid shoes control the cutting depth on irregular surfaces such as gravel driveways
- Replaceable cutting edge
- 66" wide
- Features our durable, corrosion-resistant powder coat finish

Adjustable snow deflector

High-mount chute rotator

Chain and sprocket rotating system

Heavy-duty fan and auger

Adjustable and replaceable skid shoes
