

## NEW STRONGER ORCHIDHOUSE:FIBER POLE AND TIE DOWN DIAGRAM

### OrchidHouse set-up

Step 1. Unpack FlowerHouse and accessories.

Step 2. Take fiberpoles out of pack and assemble completely. You will have two long equal length poles and three short equal length poles.

Step 3. Open roof panel into square shape exposing green pull loop on outside of greenhouse. Grab the center pull loop pull the strap out briskly and roof will pop out.

Step 4. Repeat this step, moving around the Orchid House until all the walls are "popped" out.

step 5 insert the three shorter door support fiberpoles one above the door , one left of the door , and one right of the door

step 6 insert the two long roof support poles so they cross at roof top center and insert ends into pockets in four bottom corners of Orchid House

Step 7. Stake Greenhouse in place and install high wind tie downs.
