Ware Manufacturing Cares

We are concerned about the carbon pawprint we leave as a company and are committed to using recycled and recyclable material in the manufacturing of our packaging and pet products.

EASY Litter Training Kit for Rabbits

Easy Litter Training!

STEP 1: Rabbits instinctively use a specific corner of their cage as a toilet. Observe your pet and attach the litter pan in the corner your pet is already using.

TIP: Discourage your pet from using the other areas by placing a bed in one corner, water bottle in another, and food dish in the last, as rabbits do not like to eliminate where they sleep, drink and eat.

STEP 2: Place 1 1/2" - 2" of litter in the bottom of the Corner Litter Pan. Lock the litter pan onto the desired corner.

TIP: During training, place a small quantity of soiled bedding or droppings into the litter pan daily. This helps ensure your pet immediately recognizes the litter pan as the toilet area.

STEP 3: Spot clean the litter pan on a daily basis, and clean and replace all bedding weekly.

TIP: Do not use odor neutralizing cleaners or strongly scented detergents to clean the litter pan. Your pet should recognize the scent of the toilet to be encouraged to continue using it.
