

WROUGHT IRON KIT (WIK)

Instructions

For All Cardinal Gates

Photo above shows WIK with MG-15B or SS30-A hinge bracket attached.

Photo above shows U-bolt attached at one end of WIK.

Photo above shows MG-25 gate attached. Note MG-25 upper hinge bracket is attached above U-bolt.

Ends of WIK may be reversed to obtain desired gate height above floor surface. Also WIK may be moved up or down spindle for height adjustment. Height above floor should not exceed 3 inches when used for kids.
