ASSEMBLY INSTRUCTION

Step 1: Attach front run panel (4) to left run panel (2) using screws (B). Attach right run panel (1) and back run panel (3) with screws (B). After assembling the chicken run, place the roosting bar (18) for run inside the wire.

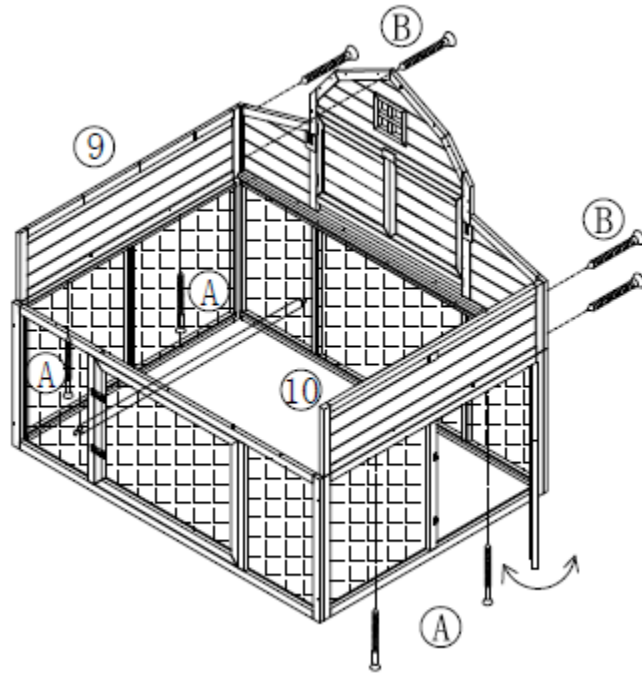

Step 2: Attach the back coop panel (5) to the back run panel (3) using screws (A).

***The screws are installed up through the run panel into the coop panel.

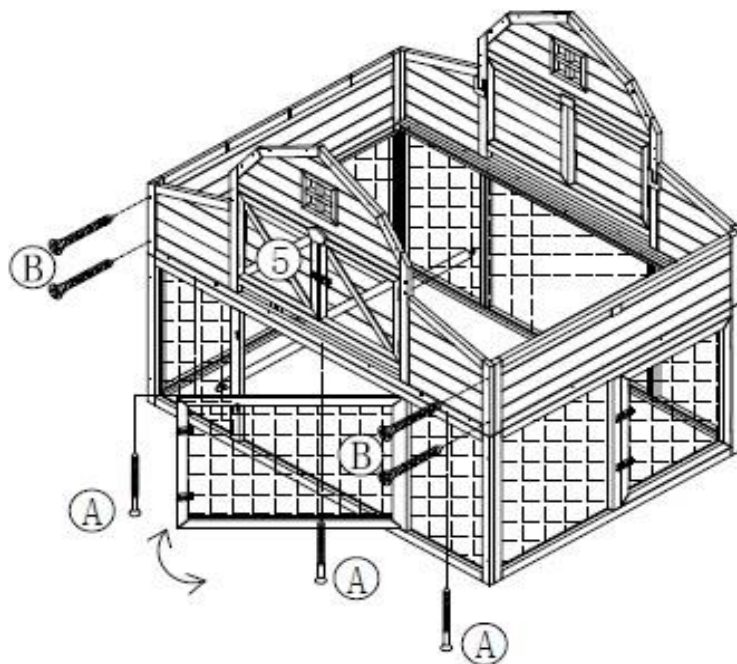

Step 3: Attach the left nesting box panel (9) and the right coop panel (10) to the back coop panel (5) using screws (B).

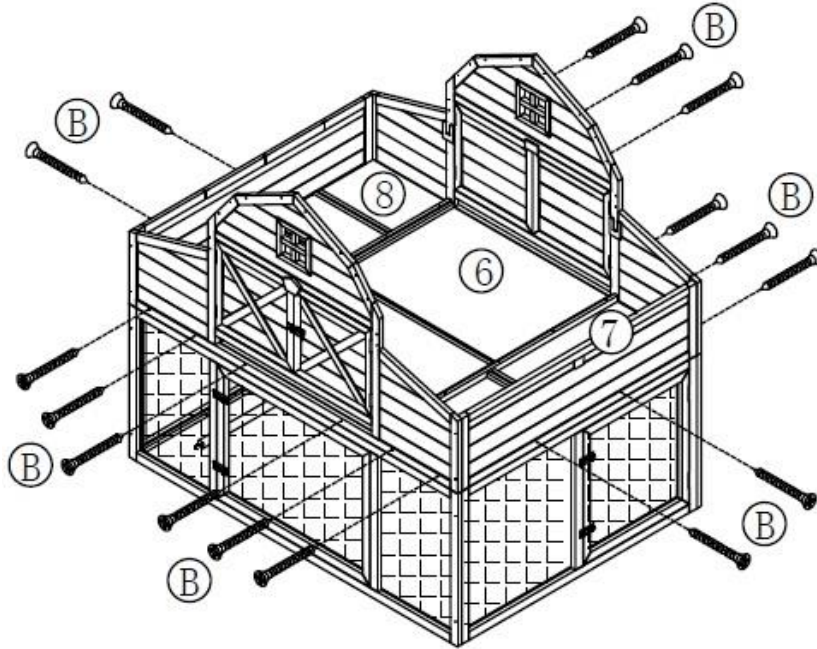

*** Note that under the right panel (10), the door must be opened to access the screw location. Use screws (A) to attach top coop panels to bottom run panels.

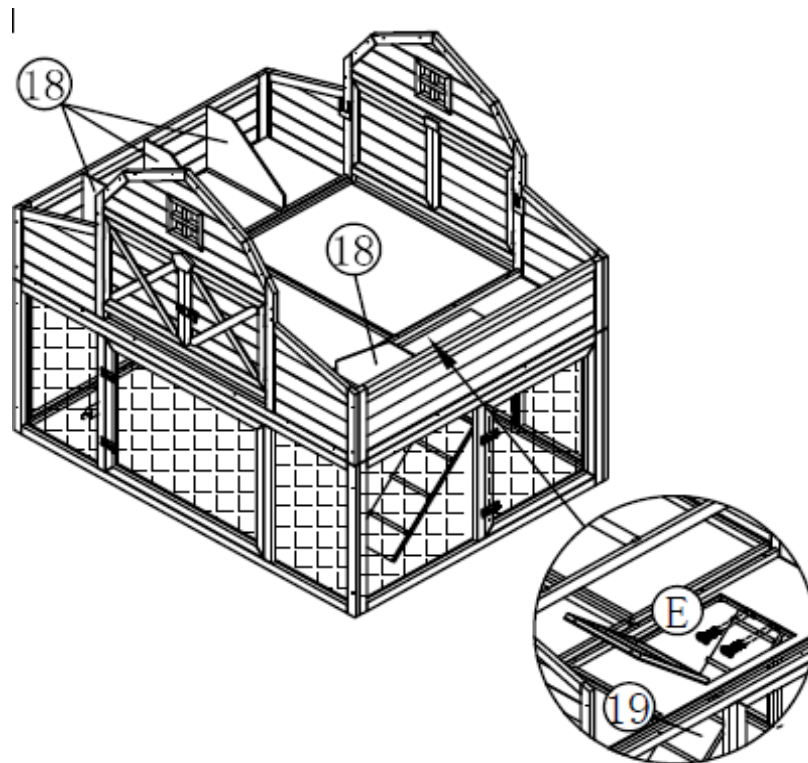

Step 4: Attach the front coop panel (5), as shown, to the side panels using screws (B). Then, using screws (A) connect the front coop panel to run panel.

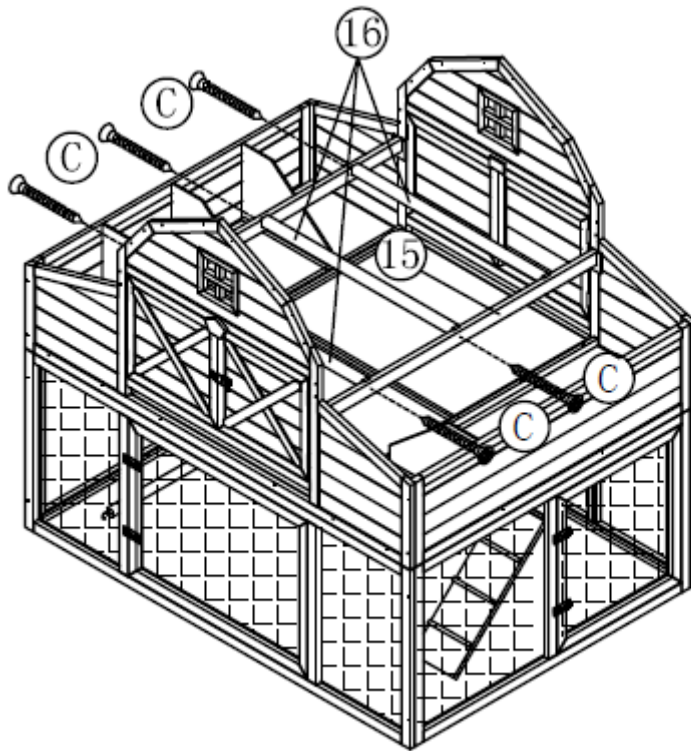

Step 5: Place the drawer base frame (6) in position as shown. Place the coop bottom panel with ladder door (7) on the right side and place the nesting box bottom panel (8) on the left side. Secure all panels with (B) screws.

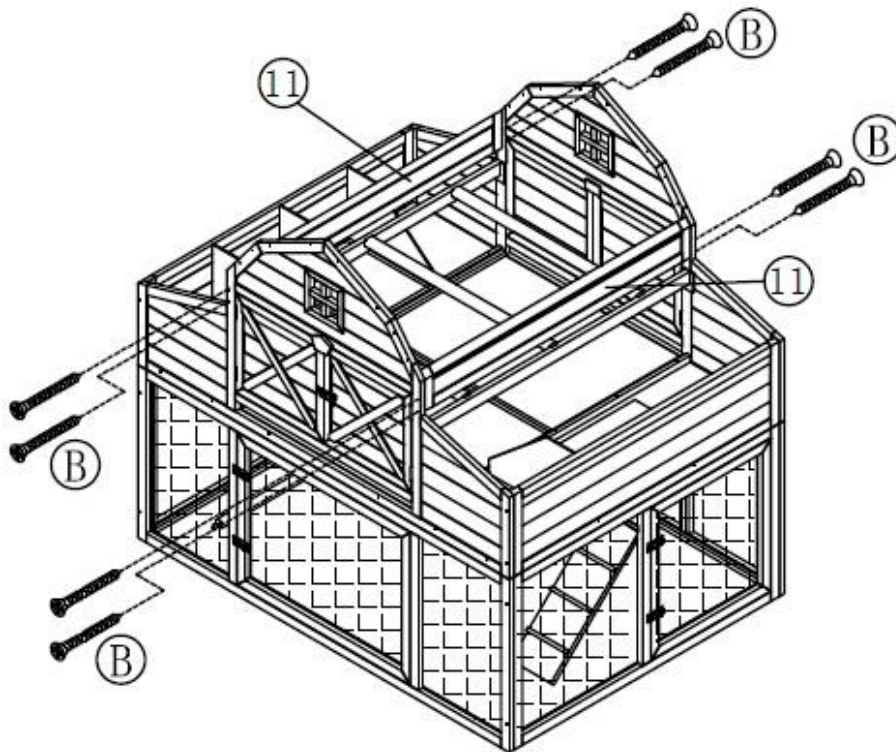

Step 6: Open the ladder door from the bottom panel, attach the ladder (19) using screws (E). Then place the nesting box dividers (18) into the nesting box.

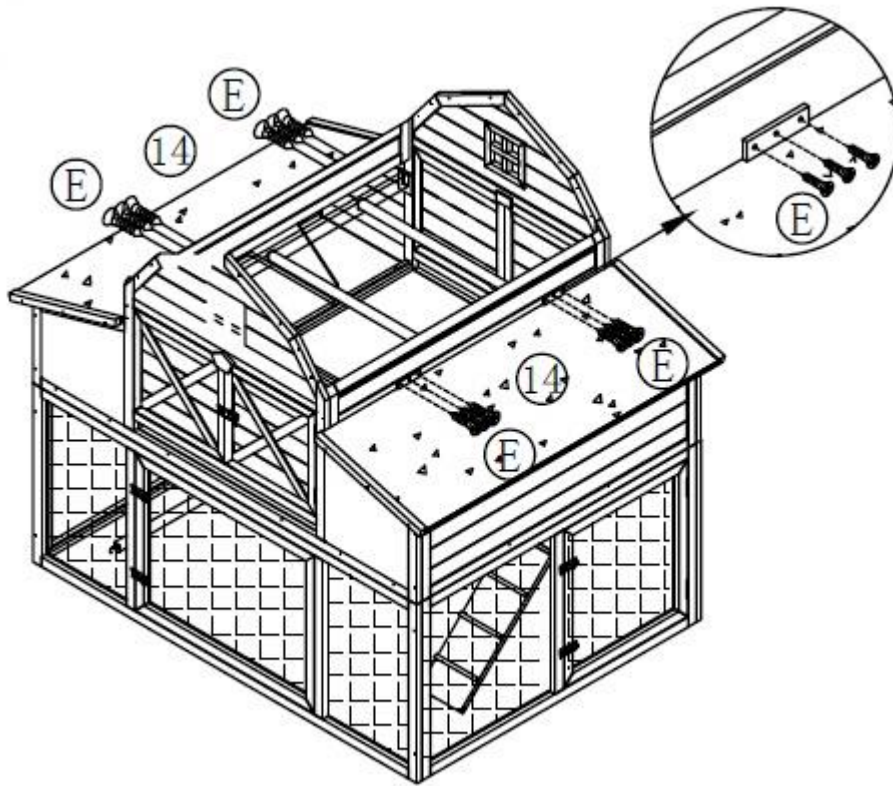

Step 7: Place roosting bar supports (15) into designated holders on front and back coop panels. Place the three roosting bars (16) into support slots and secure with screws (C).

Step 8: Attach the upper side panels (11) to front and back coop panels using screws (B).

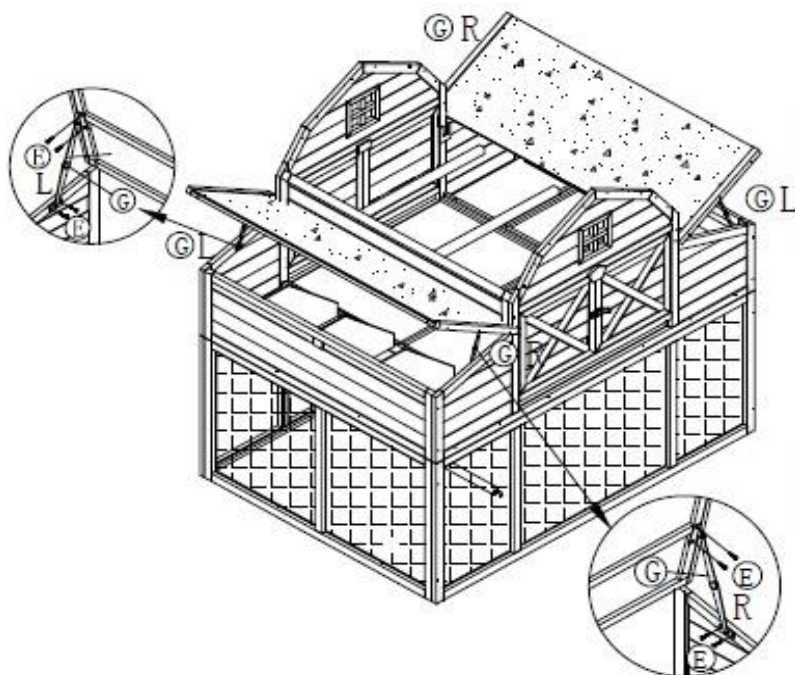

Step 9: Attach the lower roof panels (14) to the upper side panels (11) using screws (E) through hinge plates.

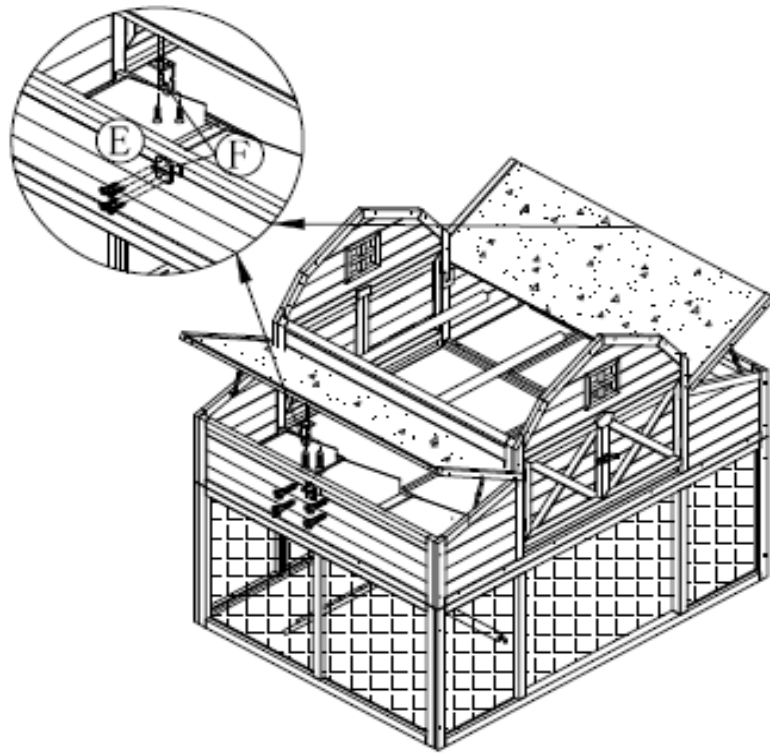

Step 10: Attach the support arms (G) to the lower roof panels (14) using screws (E).

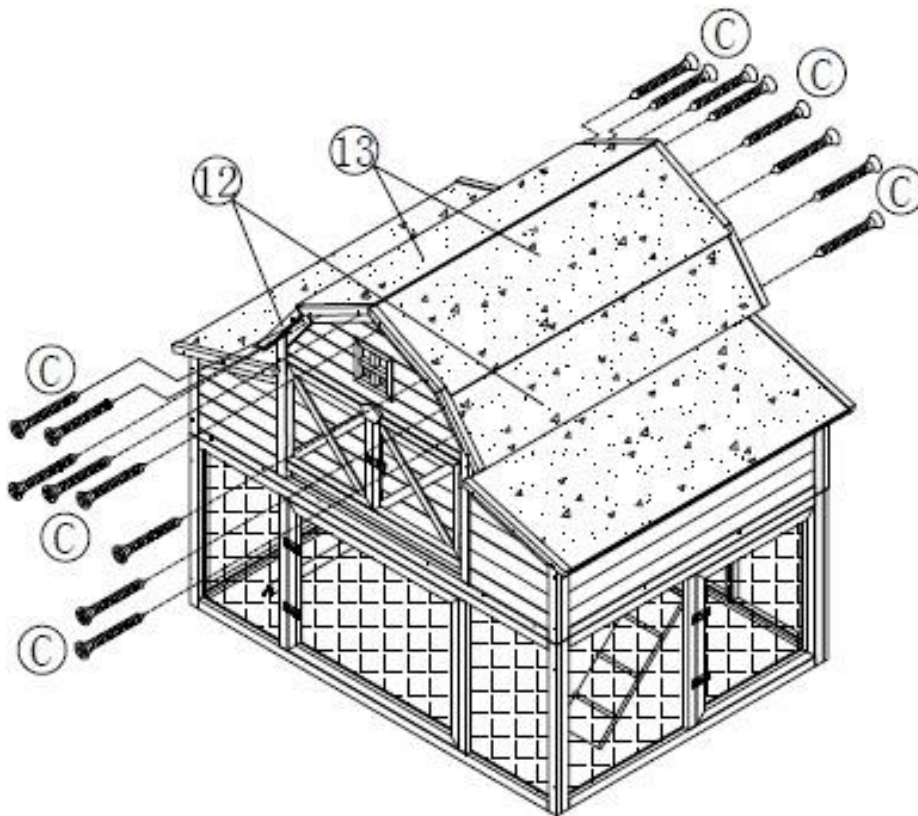

***Note the left and right direction of the support arms.

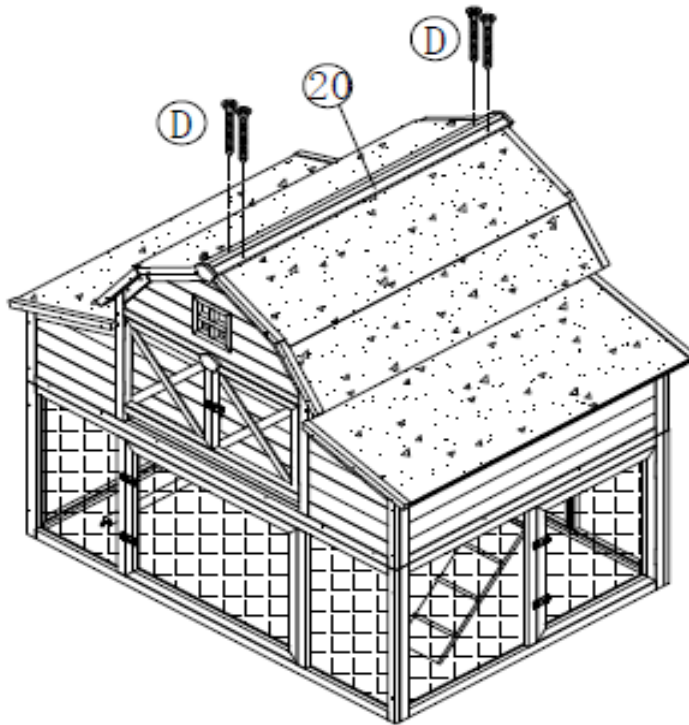

Step 11: Attach the latch (F) to lower roofs and panels using screws (E).

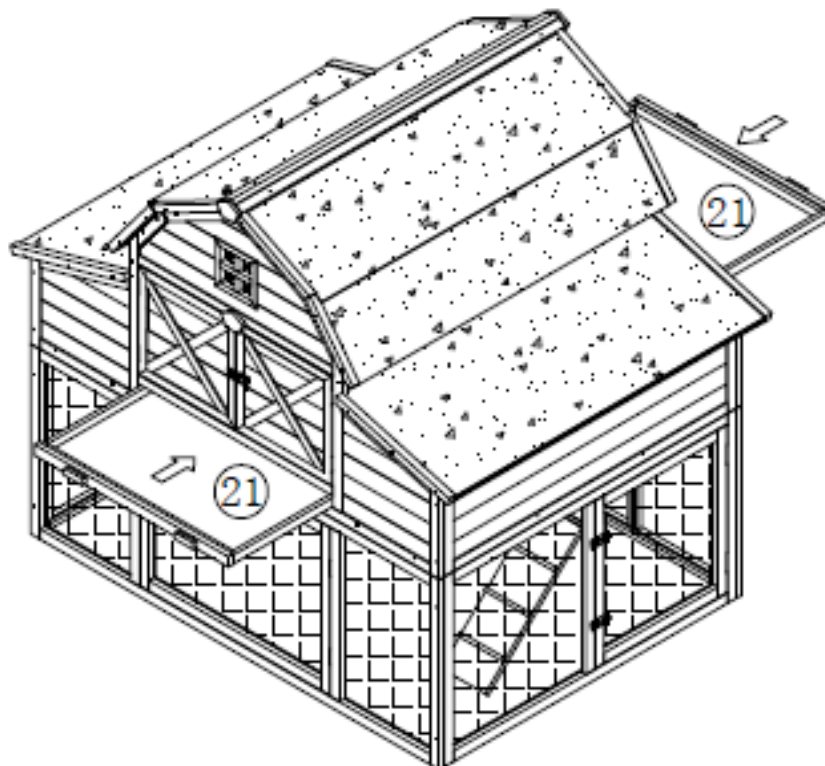

Step 12: Attach the middle roof panels (12) and the top roof panels (13) with screws (C).

Step 13: Attach the roof cap (20) with screws (D) as shown.

Step 14: Place the drawers (21) in the front and back coop panels as shown.
