

METRO DOG CARRIER™ Instructions and care

kurgo.com/product-instructions
6-16

OPEN AND CLOSING INSTRUCTIONS

The Explorer Dog Carrier has been designed to be lightweight, easy to clean and fold for easy storage. To compact the carrier follow these steps:

1. Push one side down flat against the bottom of the carrier. (FIG. 2)
2. Push the remaining standing side flat down. (FIG. 3)

USING THE TETHER WITH YOUR VEHICLE'S SEATBELT

The Explorer Carrier is designed to be attached to your car's seatbelt to reduce the movement of the carrier during transportation of your pet. To secure:

1. Buckle the car's seatbelt.
2. Hook carabiner, located at the back of the carrier, to the seatbelt.
3. Clip dog with an approved auto harness to the interior tether.

WARNING: The Explorer Dog Carrier is not a crash tested vehicle restraint system and is designed to contain an animal and stop it from being a distraction to the driver.

Cleaning Instructions

Our product cleaning instructions will help ensure that your gear has a long, exciting life. In general, washing by hand and hang air-drying is the best way to care for your Kurgo products. However, the inner pad is machine washable.

Hand Wash Instructions

Note: Recommended for small messes.

1. Brush off loose dirt with a dry brush.
2. Spot clean with a damp sponge, cold water, and mild soap. Avoid harsh detergents.
3. If necessary, rinse larger area to eliminate excess soap residue.
4. Hang to air dry (do not machine dry).

Machine Wash Instructions-INNER PAD ONLY

Note: Only machine wash gentle in front-loading units (Do not use machine with an agitator as it could cause damage not covered under the Kurgo Warranty)

1. Wash with cold water and mild soap. Avoid harsh detergents.
2. Rinse thoroughly to eliminate soap residue.
3. Hang to air dry (do not machine dry).

NOTICE: Please contact Kurgo directly with any product or warranty inquiries.
