

Thank you for purchasing the Coolin' Pet Cot™ by K&H Manufacturing. The Coolin' Pet Cot™ should provide years of soft, cool, gel-like sleeping comfort for your dog without the worry of harmful toxins from some chemical gels. Please read all instructions before using this product.

USE INSTRUCTIONS

Read all instructions carefully

HOW TO ASSEMBLE YOUR COOLIN' PET COT™:

- 1 Remove the Coolin' Pet Cot™ from the box. Unfold and lay the Coolin' Pet Cot™ cover flat and let it sit for a few minutes to allow the Cool Core™ interior to retain its shape as all air has been removed for shipping.
- 2 Next, be sure all 4 frame tubes are threaded through the sleeves sewn along edges of the cover.
- 3 Insert all 4 frame tubes into the nylon corner supports.
- 4 Turn the bed upside down so that the cover rests on the floor and follow instructions to activate bed with water.

HOW TO ACTIVATE & USE YOUR COOLIN' PET COT™:

- 1 Locate the filler cap on the bed and open it by grasping the base of the cap with one hand and the tab of the cap with the other. Pull the cap open.
See Figure a.

- 2 Remove the cap and place a towel under the filler cap end of the pad to absorb any accidentally spilled water. Begin filling the pad with either a water pitcher, sink sprayer hose, or place under a faucet and fill with cold water. **See Figure b.** Keep in mind, the more water used, the more cushioning and cooling capabilities the bed will have. You can experiment to get the optimal feel of the Coolin' Pet Cot™. Ultimately you can choose the level of squishiness and cooling capabilities by adding or removing water.

- 3 Now that you have your Coolin' Pet Cot™ filled, close the filler cap and begin to knead the bed to help work the water into the Cool Core™. Now pull open the cap and gently work as much air out as you can with your hands using sweeping motions across the Coolin' Pet Cot™. Sweep the air towards the cap allowing the air to expel from the pad. Seal the cap when most of the air has been removed. You will feel how comfortable the pad will be at this point. The pad should feel very soft and spongy and you should feel water squishing around inside the pad.

- 4 Now decide if a little more water is desirable or if it's just right for your pet. Add water if necessary, repeating the air removal process.

Note: A little air inside the Coolin' Pet Cot™ will not affect the cooling capabilities of the pad. If you choose, you may expel air as needed though not necessary.

IMPORTANT TIPS & TRICKS:

CLEANING OR STORING: Grapefruit Seed Extract is an all-natural, non-toxic antibacterial. Add it to the water when filling your Coolin' Pet Cot™ by placing a few drops in before storing to help prevent bacterial growth.

HOW TO EMPTY YOUR COOLIN' PET COT™?

- 1 Open the filler cap.
- 2 Roll pad from opposite end, expelling water out of the cap. (Much like rolling a sleeping bag)
- 3 Store with filler cap open.

HOW DOES THE COOLIN' PET COT™ WORK?

Unlike a fluffy dog bed that is designed to retain heat to keep a dog warm, the Coolin' Pet Cot™ is designed to radiate heat back into the air to keep a dog cool. The water-saturated Cool Core™ inside the Coolin' Pet Cot™ absorbs the dog's natural body temperature of 102° Fahrenheit and converts it to room temperature, which is normally well below the dog's body temperature. The difference created between the room temperature and the dog's body temperature is how the Coolin' Pet Cot™ provides a cooler, refreshing surface for your dog. Even if it is 80°F in your house, the Coolin' Pet Cot™ is 22° cooler than a dog's 102° body temperature. The Coolin' Pet Cot™ provides a permanent, natural, "cool" spot for your dog inside or outside in temperatures under 95° Fahrenheit without chemicals or electricity.

K&H Limited One Year Warranty

Our warranty is as follows: K&H Manufacturing warrants to the original consumer, that this product will be free of defects and workmanship for a period of one year from the date of purchase. The manufacturer's liability hereunder is limited to replacement of the product. This warranty is void if the product has been damaged by accident, unreasonable use, neglect, tampering, or other causes not arising from defects in material or workmanship.

To exercise your warranty: If, during the warranty period, your product malfunctions, return it to the place of purchase with your **original purchase receipt**. If this cannot be done, return the product, postage prepaid, to K&H Manufacturing, with **dated proof of purchase or original date receipt**. A return authorization number, obtained by calling (719) 591-6950 must accompany all returns to manufacturer. Please include a note explaining the problem when returning the product.
