

CROWNBEES

THINK OUTSIDE THE HIVE

Wild BEEADVENTURE

HELP THE GLOBAL BACKYARD

**More Pollination.
More Food.
Globally.**

You are supporting the future of the global backyard by raising native bees.

Learn more about Crown Bees' mission to bring food to the global table at CrownBees.com!

INSTRUCTIONS

BEE HOUSE PLACEMENT

1. Surface mount the BeeAdventure at eye level outside on a wall, post or fence.
2. An ideal location receives morning sunlight and is within 300ft of a pollen source.
3. For detailed Instructions go to CrownBees.com

BEE-READY GARDEN

1. Eliminate or lessen yard chemicals
2. Consider planting nectar and pollen rich flowers and shrubs for bees to feed on.
3. Plant fruit and vegetables in your garden.

NEED BEES?

1. Go to CrownBees.com/shop/bees
2. Select mason bees for spring pollination and leafcutter bees for summer pollination.
3. Select your preferred ship date.
4. Then submit order.

FUN BEE FACTS!

- There are over 24,000 species of bees in the world, only 10% live in hives.
- 30% of solitary bees live in existing holes and use natural materials to build their nests
- 3. Only 7 bee species in the world make honey. The rest of the bees (other 90%) are hive-less & solitary!
