Ride King

QUICK START GUIDE

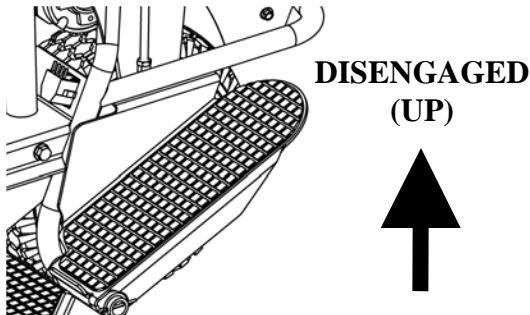

RIDE KING QUICK START GUIDE

READ, UNDERSTAND AND FOLLOW ALL SAFE OPERATING PROCEDURES IN THE OWNERS MANUAL BEFORE OPERATING THIS MACHINE.

1

Before attempting to operate or work on the machine, be sure that the drive pedal located at the lower right side of the machine is fully disengaged in the UP position.

2

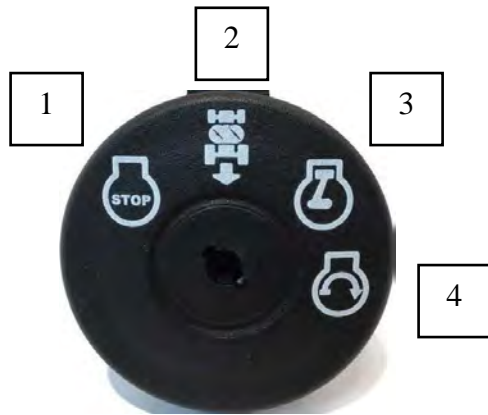

Add gas to fuel tank. Turn fuel valve to the ON position.

3

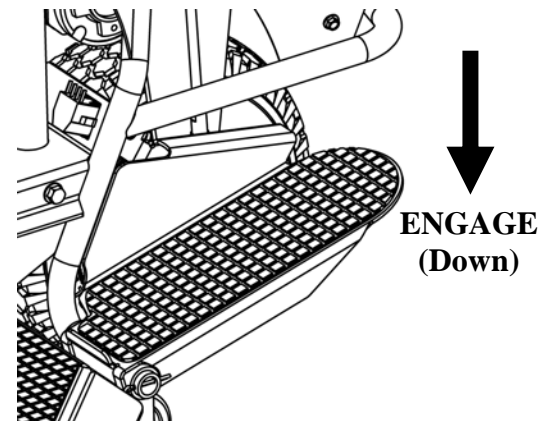

Check Engine oil level before each operation.
(Refer to engine Owners Manual)

4

To start the machine set the throttle to fast and engage the choke. Turn the Ignition Key to position four until the engine fires. Disengage the choke after engine is running. **NOTE:** To mow in a generally rearward direction, turn the key to position two. To turn off the engine return the key to position one.

5

Before driving, check the direction of the drive wheel is in the direction that will drive the machine FORWARD (see Owners Manual for reference). To begin driving, depress the drive pedal all the way down until the machine begins moving forward.
