

CS10XE

For Indoor Use

The CS10XE evaporative air cooler has a compact, light weight design with a curved body and attractive lighted control panel. It is user friendly with a 2.6 Gallon** water tank and efficient honeycomb cooling media. This evaporative air cooler delivers optimum cooling and humidification. The eye-catching CS10XE portable evaporative air cooler keeps the atmosphere pleasant in almost any small indoor space such as a small bedroom, office, child's play room or dining area. An angled LED control panel keeps operating functions in view from a distance while a full function remote control puts you in command wherever you are. The water tank is detachable for easy maintenance and cleaning.
