

- ④ Connect the window bracket to the opposite end of the plastic hose. Ensure that all connections are tight and installed properly.

- ⑤ Connect the window bracket to the window.

- ⑥ The Portable Air Conditioner is now ready to use.

# INSTALLATION

## Note:

1. The supplied exhaust hose can be extended from 12 inches (1 foot) to 47 inches (3.9 feet).
2. Do not bend (to the extent shown below) the exhaust hose.  
A bent hose will block exhaust air and cause the unit to malfunction or shut-off.

## Warning:

- The length of the exhaust hose is determined by the product specifications. Do not replace or lengthen it as this could cause the unit to malfunction.
- Make sure the back of the unit is at least 20 inches away from a wall.  
Do not place the unit in front of curtains or drapes as this could obstruct the airflow.
