

36" TOWER FAN with REMOTE CONTROL

Model 2510

Add cool comfort to your daily life! This slim, vertical fan takes up little floor space yet provides an effective breeze over a broad area. Featuring three fan speeds, a wide-area oscillation sweep, and a programmable timer, this fan can be adjusted to maintain your desired comfort level. The multifunction remote control gives you the freedom at your fingertips to change settings, and can be stored in the back of the fan when not in use. Electronic controls and display are conveniently located on the unit's top. The easy-carry handle allows you to take it wherever you go in your home or office. Safety features include a patented fused plug cord set.
