

## **Canopy for Zero Turn Lawnmowers & Category 1 Tractors (Attaches to the ROPS)**

**Model # LNP1012 / TAP1000**

Don't let a couple of hours of zipping around on a riding lawnmower or tractor develop into a "cookout", with you being the one on the grill! With Great Day's Big-Top Canopy, mowing the lawn is always a "shady deal". No more worrying about heat strokes and skin cancer. The Big-Top canopy measures 36 inches wide and 46 inches long, covering and shading the operator at all times. The Big-Top canopy fits zero-turn riding lawnmowers with roll-bars and category 1 tractors with ROPS. It installs quickly with a minimum of drilling or use of special tools. The frame is constructed of 1 ½ inch, **aircraft aluminum** and adjusts for back or forward leaning roll bars. The Big-Top cover is made of heavy-duty .180" inch polyethylene. All metal components are powder-coat painted for years of dependable service. Fits roll bars 32" to 36" wide (outside measurements)
