

Tote Caddy Adaptor

Model TC5000A

The TC5000A is designed to work with the Tote Caddy on vehicles whose receiver hitches are either higher or lower than the workable range of Tote Caddy. (14" to 20"). The Tote Caddy Adaptor corrects this problem in an instant. The Tote Caddy Adaptor can be installed to provide a choice of either lowering or raising the hitch receiver by 4".

The Tote Caddy Adaptor is constructed of aircraft aluminum and finished with super-tough powder-coat enamel. It has a 200 Lb. weight capacity. Works in vehicles equipped with a 2" receiver.

The TC5000A weighs only 5 lbs and ships by UPS.

- **TO BE USED WITH TOTE CADDY, TC5000, ONLY**
- **RAISED RECEIVER MAY INTERFERE WITH REAR VEHICLE BUMPER**
