

Telescoping Poles

Saves Space - Adjusts To Fit The Job

The leader in fiberglass poles brings you a high quality, lightweight telescoping pole that saves space and adjusts to fit your job. Double locks (internal lock and external cap) ensure poles will not collapse, offering a secure connection at any length for maximum versatility and safety. Lightweight, durable fiberglass will not crimp under high stress like aluminum poles.

Double Lock™ System

Extend pole sections to desired length, twist top pole to engage internal lock then tighten outer cap lock to secure.

Telescoping Pole With Female Ferrule

Ferrule allows the use of Pruner or Pole Saw with the same pole
