

**ASSEMBLY INSTRUCTION**

**ITEM # L-GZ238PST-11C1**

**IMPORTANT:**

Please read and follow all safety statements, warnings, assembly instructions, use & care directions before attempting to assemble.

1. THIS UNIT IS HEAVY! When installing and assembling your gazebo, it is recommended that 2 or more adults are involved.
2. Do not use the unit during an electrical storm, as there is a remote chance of getting struck by lightning.
3. Do not climb on top of the gazebo. Falling off the gazebo can result in serious injury, possibly even death.
4. Do not leave the gazebo assembled when there is a risk of high wind, as possible damage will occur to the gazebo and to nearby property/structures.
5. Select ideal location. Set out all parts on a clear and level surface prior to assembly. Ideally, the gazebo frame should be set up in its desired location to avoid moving it after assembly.
6. Ensure that all connectors & posts are firmly secured in position fully. It is important to do so before use so as to avoid collapsing or damage to the item, which could result in injury.
7. Read all instructions before assembly and using this product.
8. Tools required for assembly are: ladder, hammer, and number 2 phillips screwdriver. These tools are not included.
9. KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS TENT FABRIC. This tent is made of flame-resistant fabric. It is not fireproof. The fabric will burn if left in continuous contact with a flame source
10. Keep children away. Children must never be allowed in the work area. Do not let them handle parts and tools.

## **Care & Maintenance**

- Before using, clean the product completely with a soft, dry towel. When not in use, wipe free of any dirt or loose objects, wash with a mild solution of soap and water; rinse thoroughly and dry completely.
- Do not use strong detergent or abrasive cleaners.
- Do not machine wash.
- Bolts can loosen over time. Be sure to check bolts occasionally, tightening as needed.
- This gazebo is not a permanent structure and should be disassembled & stored away after use.
- Our iron/steel components for garden accessories and patio items are coated with rust inhibiting paint that protects it from rusting. However, due to the nature of iron, surface oxidation (rusting) will occur once these protective coatings are scratched. This is a natural process and is not a defect! To minimize this condition, we recommend care when assembling & handling the product to prevent scratching the paint. Should any scratching or damage occur, we recommend immediate touch-up with rust inhibiting paint. Surface rust can also be easily removed with a very light application of common cooking oil. If surface oxidation (rusting) occurs and if no measure is taken to prevent this, the oxidation may start dripping on to deck or patio and cause damaging stains, which may be difficult to remove. This can be prevented if measure is taken to keep the product from oxidizing.
