

## *PupSTEP + Plus XL Pet Stairs Care & Use Guide*

Thank you for purchasing the PupSTEP + Plus XL Pet Stairs. These lightweight stairs are an excellent choice for helping pets of all sizes reach their favorite places.

**CAUTION: The PupSTEP + Plus stairs are intended for pets only! Not intended for human use or for carrying heavier loads. Please follow this guideline strictly!**

### **ASSEMBLY:**

**Step one – position the back leg in the “locked” position:** Simply swing out the back leg section (which is folded under the main stair section) until both of the “locking tabs” are engaged in their respective windows in the “locking rib” section. To ease the engagement of the locking tab into the window, press down gently on the “button” on the locking tab arm.

**Step two – attach stair treads:** There should be four adhesive-backed tread covers included with your stairs. Working one step at a time, peel the white paper backing off each tread piece and press firmly into the recessed area on each plastic step. Hold pressure for a few seconds before moving to the next piece. Repeat until all four tread pieces are installed.

**Step three – attach non-slip feet (optional):** Attach the rubberized non-slip feet only if the stairs will be used on a slick surface, such as wood flooring. Clean the flat area at the corners on the underside of the stairs with rubbing alcohol, then peel and stick the feet in place.

**Training:** Many pets will take to the stairs immediately, while others will require patience and gradual training. Try placing treats on the steps to encourage your pet to climb. Covering the stairs with something familiar, like a favorite blanket with treats placed on top can also help pets overcome their hesitation. If your pet becomes anxious while training, take some time off and let them learn to use the steps at their own pace.

**Storage:** The PupSTEP + Plus can be re-folded into the closed position for storage or travel. To do this, simply press the release “button” located on both locking tabs located on the upper part of the back leg (refer to figure above).

**Cleaning:** Promptly wipe up any foreign matter or liquid with a damp cloth or sponge.

**Limited Lifetime Warranty:** The PupSTEP Plus XL Stairs are warranted to be free from defects in materials or workmanship for the life of the product. Some restrictions apply, so please visit our website for more details. A copy of the original sales receipt is required for warranty issues.

SOLVIT Products is dedicated to offering innovative solutions to improve pets’ quality of life. Please feel free to contact us with any questions, comments, or warranty issues. Thank you for your purchase!
