

Standard Warranty

Delavan Ag Pumps warrants PowerFLO, RollerPRO, HD Magnum and Turbo-90 pumps for a period of two years from date of purchase. PowerMAX cylinders are warranted for a period of three years from date of purchase. Requires proof of purchase.

All products sold by Delavan Ag Pumps are warranted only to purchasers from Delavan for resale or for the use in purchasers' own business or original equipment manufacture, against defects in workmanship or materials under normal use, maintenance and service (rental use excluded).

The sole and exclusive obligation of Delavan Ag Pumps under this or any implied warranty shall be to replace or, at its option, to repair, without charge, any product that is determined by Delavan Ag Pumps to be defective in workmanship or materials after the product is returned to the Delavan factory, shipping costs prepaid.

In no event shall Delavan Ag Pumps be liable to any person for indirect or consequential damages or for injury or commercial loss resulting from any use or inability to use any Delavan products. Delavan Ag Pumps expressly negates any other warranty, express or implied, including any warranty of merchantability or fitness for a particular purpose, or arising from any course of dealing or custom or usage of trade.

No person, including any dealer or representative of Delavan Ag Pumps, is authorized to make any representation or warranty on behalf of Delavan Ag Pumps in addition to or inconsistent with these provisions. Purchasers to whom these provisions apply agree to hold Delavan harmless from claims by their customers in excess of the obligations of Delavan expressly set forth herein.

Important Return Safety Instructions

When you return your pump for warranty or repair, you must always do the following:

1. Flush chemical residue from the pump (best if done in the field)
2. Tag pump with type of chemicals have been sprayed
3. Include complete description of operation problems, such as how pump was used, symptoms of malfunction, etc.

Since pump can contain residues of toxic chemicals, these steps are necessary to protect all people who handle return shipments and to help pinpoint the reason for the breakdown.
