

Electro Gel

A Premium Quality Electrolyte Supplement

Indications:

An oral electrolyte supplement to help prevent dehydration and restore the digestive system in sheep, goats and pigs.

Approved For Use On:

Sheep, Goats and Pigs.

Benefits:

- No need to mix with water, like most other electrolyte products
- Available in a convenient calibrated dosing syringe
- Low cost per dose compared to most other electrolyte products, while offering a significant advantage in ease of administration
- **Contains Maltodextrin** - a substitute for glucose which increases absorption of fluids from the gut helping to:
 - Prevent dehydration
 - Reduce the level of diarrhea
- **Contains L-Glutamine** - helps to heal damaged intestinal villi that are the cause of diarrhea
- **Sodium Chloride, Sodium Bicarbonate, Potassium Chloride** - replace electrolytes lost due to diarrhea and to restore proper balance in the gut

Active Ingredients:

Maltodextrin.....8.55g
L-Glutamine.....1.74g

Inactive Ingredients:

Sodium Chloride, Sodium Bicarbonate,
Potassium Chloride, Xantham.

Directions for Use:

Orally administer 1/2cc to 1cc per pound of body weight by mouth twice daily or more often as needed. Provide adequate water after each feeding.
