Warranty Information

Campbell Hausfeld Offers 10 Year Tough Tank Guarantee

Campbell Hausfeld DIY air compressor tanks featuring ASME compliant steel are guaranteed to be free of cracks, holes and manufacturing defects for 10 years. This guarantee applies to consumer oil-free air compressors only and excludes all oil-lubricated professional/commercial air compressors. Air compressors with tanks covered by the "10 Year Tough Tank Guarantee" will be clearly noted and feature the following graphic on packaging and decals.

Warranty policies vary by product category. Check the owner's manual for details on the policy.

The warranty for Campbell Hausfeld stationary air compressors includes on-site warranty service in the first year of ownership. This means that an authorized Campbell Hausfeld service provider will come to your location to repair a warranted defect at no charge. This on-site service only applies to the repair of defects in material and workmanship during the first year of ownership. Refer to the Limited Warranty statement included with your compressor for complete details of the warranty.

Stationary compressors are defined as including a 30 gallon or larger tank and not including a handle or wheels.

To locate a service center near you, [click](#) on this link.

Note: Campbell Hausfeld has an extensive network of service providers throughout the United States. In the event there is no service provider within reasonable distance to your location, Campbell Hausfeld will make alternative arrangements to satisfy the product warranty.
