

The **WARRANTY** that **SELLS** *Itself*

HOW DO YOU CHOOSE A SAFE? LOOK AT THE WARRANTY!

Gun safes today in many ways have become like automobiles. Each manufacturer offers unique features, attempting to make their product appear different from the rest. Manufacturers are quick to entice with special promotions and details about what they will do for you BEFORE the purchase. Very few talk about what they will do AFTER the sale has been completed. Unfortunately, over time many consumers pay much more than the total purchase price of the safe.

CONSUMERS PAY MORE BECAUSE OF POOR WARRANTIES

While many warranties sound complete, they often do not cover drilling a safe open or shipping the safe cross-country to the factory. These two steps alone can cost hundreds. Cannon Safe is the **ONLY** manufacturer to offer a **ZERO COST - LIFETIME WARRANTY**. We pay for drilling the safe open and freight round-trip from your home and to the factory.

Not all warranties are created equal— Before buying a safe, ask the following questions:

1. Who pays for a safe tech to open the safe?
2. Who pays for a safe tech to repair the safe?
3. Who pays for the safe to be repaired onsite at your home?
4. If repair is not possible in-home, who will pay the freight to the factory and back?

Cannon Will!— We honor the best Lifetime Warranty out there. Period!

We believe that purchasing a safe is one of the best investments you'll ever make and that your decision is a permanent one. We believe a warranty should provide hassle-free **NO COST** repair or replacement after a flood, attempted break-in, actual break-in or potential fire disaster. Yes, you read that correctly. We are the **ONLY** safe company to offer **FREE** parts, **FREE** labor, and **FREE** freight for repair of your safe after a burglary, flood or fire **FOR THE LIFETIME OF THE SAFE**.
