IMPORTANT SAFEGUARDS

COMMERCIAL ALWAYS
When using an electrical appliance, basic knowledge of electricity is essential. Read the following instructions before using this appliance.

DANGER
To reduce the risk of electric shock:
1. Do not reach for an appliance that has become hot immediately after using it.
2. Do not use while bathing or in a shower.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink.

**For Model Numbers:
78005
76097
76076
76111
78015
78075
78175**

WARNING
To reduce the risk of burns, fire, electric shock, or injury to persons:
1. Do not use the appliance unless it is unplugged in a dry area.
2. Do not use the appliance unless it is understood when it is plugged in.
3. Do not use the appliance unless it is understood when it is plugged in.

SAVE THESE INSTRUCTIONS

CONSIGNES DE SÉCURITÉ IMPORTANTES

TONDISE PROFESSIONNELLE
Lorsque vous utilisez un appareil électrique, vous devez posséder des connaissances de base en électricité. Lisez les instructions avant d'utiliser cet appareil.

DANGER
Pour réduire les risques de choc électrique:
1. Ne pas toucher d'appareil qui est devenu chaud immédiatement après l'avoir utilisé.
2. Ne pas utiliser en prenant un bain ou une douche.
3. Ne pas placer ou stocker l'appareil où il pourrait tomber dans une baignoire ou un évier, ou être entraîné dans un égout.

**Pour les modèles:
78005
76097
76076
76111
78015
78075
78175**

AVERTISSEMENT
Pour réduire les risques de brûlure, d'incendie, de choc électrique ou de blessure aux personnes:
1. Ne pas utiliser l'appareil s'il est devenu chaud immédiatement après l'avoir utilisé.
2. Ne pas utiliser l'appareil s'il est plongé dans une zone sèche.
3. Ne pas utiliser l'appareil s'il est plongé dans une zone humide.

CONSERVER CES INSTRUCTIONS

CONSEJOS DE SEGURIDAD IMPORTANTES

MAQUINILLA COMERCIAL
Siempre que se utilice un aparato eléctrico, es necesario tener conocimientos básicos de electricidad. Lea las instrucciones antes de utilizar este aparato.

PELIGRO
Para reducir el riesgo de una descarga eléctrica:
1. No tocar un aparato que haya estado caliente inmediatamente después de haberlo utilizado.
2. No utilizar el aparato en un baño o ducha.
3. No colocar ni almacenar el aparato en un sitio donde pueda caer en un fregadero o en un desagüe.

ADVERTENCIA
Para reducir los riesgos de quemaduras, fuego, descarga eléctrica o daños personales:
1. No utilizar el aparato si éste está caliente inmediatamente después de haberlo utilizado.
2. No utilizar el aparato en un baño o ducha.
3. No colocar ni almacenar el aparato en un sitio donde pueda caer en un fregadero o en un desagüe.

DO NOT TAMPER WITH CLIPPER

OPERATE ON VOLTAGE SPECIFIED ON CLIPPER

DO NOT USE THIS CLIPPER UNLESS YOU HAVE READ THESE OPERATING INSTRUCTIONS

OPERATING THE UNIT

Always apply one to two drops of the provided blade lubricant or other Oster approved lubricant to the blades before use.

Cutting efficiency may drop and the blades and motor may be damaged if hair or other hair styling agents come into contact with the blades.

Do not clean the clipper with the "on-Off" switch located on top of the unit and use the clipper.

Turn the clipper off after finished using.

Cover the blades with the provided blade guard to protect the blades.

Unplug unit after use and store properly.

User-Maintenance Instructions

1. The product is for commercial use.

2. Keep cord straight while using. If cord becomes kinked or tangled, stop clipping and attempt to straighten the cord.

3. Do not wrap cord around the clipper when storing. This can damage the cord insulation.

4. Always take care not to tangle the cord while using or storing the clipper.

5. We recommend storing the clipper and cord in the original carton which not in use.

6. Do not use the clipper unless you have read these operating instructions.

7. Do not use the clipper unless you have read these operating instructions.

8. Do not use the clipper unless you have read these operating instructions.

9. Do not use the clipper unless you have read these operating instructions.

10. Do not use the clipper unless you have read these operating instructions.

11. Do not use the clipper unless you have read these operating instructions.

ABOUT THIS CLIPPER

LUBRICATING MOTOR

For Clippers with Oiler — Oil only if motor develops a "squeal" to a dry squeal. Remove metal guard, and apply oil to motor. Do not use oil on the cutting blades. MORE OIL IS HARMFUL. Do not use detergent oil. It drives the oil out of the bearing and does not provide adequate lubrication. Use Oster® Premium Lubricating Oil.

BLADE SHARPENING

Blades should be inspected and resharpened on an individual hollow-ground design, hardened to extend cutting life. As with any cutting instrument, the cutting edges will become dull with use. Increasing blade tension and forceful blades to cut can cause the clipper to heat and reduce motor life. To further shorten blade life, cutting blades no longer cut smooth and clean, sharpening is necessary.

REMOVING OR REPLACING BLADES

TO REMOVE:
1. Turn clipper STOP MOTOR; lift blade away from clipper and side of tongue.
TO REPLACE:
Turn motor on; insert blade on tongue fully then snap blade into place.

LUBRICATING THE BLADES
Blades should be inspected and resharpened on the surface of the cutting blades. Oiling the blades frequently while in use will help keep the blades clean. Clean blades cut better. To clean blades, dip the teeth into Blade Wash cleaner with the clipper running. DO NOT IMMERGE THE CLIPPER. Remove excess cleaner by first drying the blades with a clean towel, then dip the blades dry with a clean, dry cloth. Re-oil blades.

CARBON BRUSHES
Brushes should be inspected and replaced periodically to insure maximum motor performance and life expectancy. UNPLUG THE CLIPPER FROM THE POWER OUTLET TO PREVENT AN ELECTRIC SHOCK WHEN INSPECTING OR REPLACING BRUSHES. To remove a brush on models with a SLOTTED BRUSH CAP, unscrew the brush cap to expose the brush (do not pull it out) and remove the nylon insulator cap. Remove the brass cap by applying slight pressure to the side of the cap with a fingernail in a picking fashion. Remove the brush and spring assembly and compare the length of the round and square sections of the brush. When the brush has been replaced, re-assemble in the order listed in the round section. The brush must be replaced to prevent possible damage to the motor armature. Always replace the brushes as a set of 2 brushes even though only one may be at or below the required length. When reinstalling brushes, make certain that the spring clipper with the blades is closed down, place the triangular notches in the brass cap and then the nylon cap over the brush spring — pressing down to seat the brass cap into the brush. Replace the slotted outer cap and screw down tightly to prevent loosening.

REMOVING OR REPLACING BLADES

TO REMOVE:
1. Turn clipper STOP MOTOR; lift blade away from clipper and side of tongue.
TO REPLACE:
Turn motor on; insert blade on tongue fully then snap blade into place.

LUBRICATING THE BLADES
Blades should be inspected and resharpened on the surface of the cutting blades. Oiling the blades frequently while in use will help keep the blades clean. Clean blades cut better. To clean blades, dip the teeth into Blade Wash cleaner with the clipper running.
