## SWEDISH DUCKS

The typically blue colored Swedish Duck breed is a good addition to the backyard flock and is a hardy breed. Blue is the only APA standardized color for the breed but there can be Black, Silver, and Splashed colored offspring. They have a calm disposition and are active foragers. They can be good layers of eggs that can be white, tinted, blue, or green in color. Swedish ducks are considered a medium-weight duck breed that mature to 7-8 lbs.
